Westhauser's

NURSERIES

Sawyer, Michigan

Close-up of
3-year-old
Pear Tree
Showing
Large
Yield

SEEDLESS PEAR

(Patent Pending)

Endorsed by Prof. Ellenwood, Ohio Agricultural Experiment Station. Triumphs in quality and flavor. Every bit a delight! Smooth and melting, juicy, sweet and packed full of rich flavor. No seed. No core. Just solid white Pear all the way through. As large as the largest Bartlett. Waxy yellow skin with russet flecks and red cheek. Easy to can. Serve smooth halves or whole Pears for fine salads and desserts. A practical, high grade fruit for market. Ripens ten days after Bartlett. Trees usually bear when 3 years old, and produce enormous crops. Price: 9/16 in., 3½ to 4½ ft. trees, \$1.00 each, 5 or more trees, 75c each. No discount.

\$1.00

Better Quality at No Extra Cost

Our Extra Heavy Bearing Strains Can Not Be Compared With Ordinary Haphazardly Grown Stock

They are the results of long experience, careful selection of breeding stock over a long period of years, good soil management, up-to-the-minute farming machinery. WESTHAUSER strains will in turn produce a heavy yield and pay large dividends for his customers.

WM. WESTHAUSER

Seeing is Believing

Mr. C. W. Lininger of Michigan
says (7-20-41):

"I want to thank you for your time and courtesy in showing me over your nursery farm.

"I enjoyed my visit and am sure you are doing a very fine job of producing plants of all kinds. The quality of your plants are of the best."

Our Responsibility of Leadership

Is in selecting only the BEST PROVEN varieties in the nursery line for our customers, which must and will go on. Only after years of careful testing of NEW VARIETIES do we actually bring to you in our Guide Book the varieties to plant for SUCCESS.

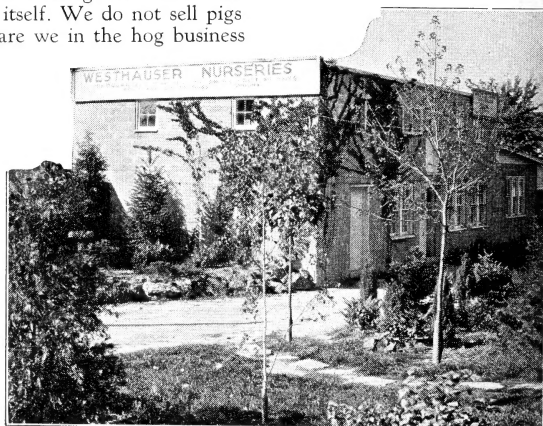

No Effort Too Great for Additional Fertility

We make a practice of feeding live stock. The photo below speaks for itself. We do not sell pigs in our catalog, neither are we in the hog business

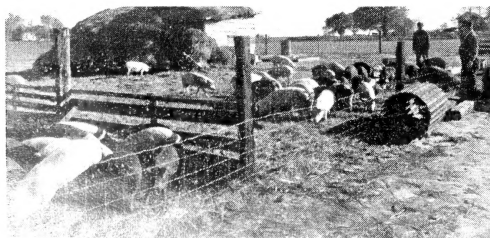

for profit, but no effort is too great to keep our producing soils in the highest state of fertility, which means THRIFTY, HEAVIER ROOTED NURSERY STOCK.

Hardy Northern Grown

Our NORTHERN CLIMATE is ideal for growing thrifty, hardy nursery stock, because we are located so near Lake Michigan, which puts a damper on our winters, making the climate such that our nursery stock is practically dormant until late in the spring. Bear in mind, Mr. Fruit Grower, plants that are dormant so late in the season, have little foliage and carry well in transit. That is one reason why our plants can be shipped long distances with the best of results.

Westhauser's Up-to-Date Packing House and Office

Only your system of selecting strong healthy plants, planted on new or heavily fertilized land could produce such wonderful plants as you have shipped me.

There is no comparison with plants I have had from other nurseries, your plants are really in a CLASS by themselves.

D. C. FRANKS.

**OUR PLANTS
Are in a
Class by
Themselves**

says
D. C. Franks

Our Broad GUARANTEE is Your Protection

We guarantee that our nursery stock is first class in every respect, free from disease, freshly dug, true to name, and to reach you in good growing condition. We will, at our option, either replace free of charge or refund your money on any shipment which arrives in bad condition, providing claim is made within five days after arrival of shipment, with a signed statement from your Express Agent or Postmaster, showing the extent of damage.

Our stock is carefully handled and full of vitality, and under ordinary conditions should grow for you. But if it does not, owing to the weather and other conditions over which we have no control, we will replace it at half price the following season, if you notify us not later than October 1, 1942. It is understood between purchaser and ourselves that we are not liable for any greater amount than paid for stock.

Help Us to Operate More Economically and WE WILL PASS THE SAVINGS ON TO YOU

Free Goods and Discounts

Naturally \$5.00 and larger orders can be put up more economically than \$2.00 or \$3.00 orders, hence the FREE GOODS as enumerated to the right on this page. If your order is close to \$5.00, it is to your interest to make it a \$5.00 or more order and get your FREE GIFT. ORDER EARLY and EARN THE BIG CASH DISCOUNT—listed to the right on this page. We can handle your order more economically in the fore part of the season than we can later on during the spring rush.

WHEN TO ORDER

Order now on the receipt of this catalog or as soon as possible thereafter and we will reserve your stock for you. Shipping date from March 15th to the latter part of May.

PAYMENT AND TERMS

Cash with order; however, if your order amounts to \$5.00 or more, we will book your order with 25% down and balance 10 days before you wish your stock shipped.

INSPECTION CERTIFICATE

MICHIGAN STATE DEPARTMENT OF AGRICULTURE
Orchard and Nursery Inspection Certificate of Nursery Inspection No. 470
This is to certify that the Nursery Stock of Westhauser's Nurseries, Sawyer, Mich., has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant diseases. Fee paid.

LEO V. CARD, Commissioner.

This certificate to be void after September 15, 1942. Bureau of Agricultural Industry. C. A. Boyer, in charge of Orchard and Nursery Inspection. Lansing, Mich., September 2, 1941. First Inspection, August 20, 1941.

Beautiful Fall Coloring

**Rosa
Rubrifolia**

An adorable ornamental rose bush with staring pink flowers that bloom in early spring and again in fall. The foliage is dark green in spring turning dark red to bright red in fall. Beautiful for hedge and specimen planting. For hedge planting space 3 feet apart. 2-yr. blooming size plants, 50c each; 3 for \$1.25.

VITAMIN B₁

You've Heard of It—NOW TRY IT

Vitamin B₁ reduces the shock in transplanting. HOW TO USE IT: Dissolve 1 tablet in gallon of water, sprinkle plants immediately after transplanting. In case plants, shrubs or trees are already planted soak soil around the roots with solution. Dormant or barerooted plants should be soaked in solution not less than 1/2 hour or more than 1 hour before planting. Endorsed by leading agricultural and horticultural papers.

A Golden Opportunity

To Obtain Famous HYSLOP CRABAPPLE
At Less Than Wholesale Prices

In Addition to Free Goods Listed Above

Dollar value! Hyslop Crabapple Tree, fruiting size! At a price that barely covers digging and wrapping expense, namely, 25c, if accompanied by \$5.00 order or 2 with \$10.00 order and so forth. This beautiful ornamental tree fits in any planting, and aside from its beauty it will supply you with an abundance of red-cheeked Crabapples that make delicious preserves and jelly. We make you this spectacular offer as we have a block of 3-year-old Hyslop Crabapple trees ranging from 6 to 7 feet that we must move and rather than wholesale them we want our customers to have the benefit of the SAVING. This offer is void after Feb. 15th, 1942, as we anticipate our supply to be exhausted early and can not accept any orders for these trees after that date.

PREMIER

Early—Most Profitable

Premier is the early Standard Strawberry to ripen. It gets on the market when there is no competition, thus it receives the highest prices. This fact alone makes it a great money maker.

Premier Prices

25 for	\$0.60
50 for85
75 for	1.00
100 for	1.15
200 for	1.85
300 for	2.60
500 for	3.90
1000 for	7.50

The berries are large, of a beautiful glossy red appearance, very firm and stand long distance shipping well. It holds its size to the last of the season. Premier is supreme for eating, canning, local and long distance marketing. It is a Strawberry for every purpose wanted. The plants are very productive, sturdy, long rooted, good drought resisters, and make good on any kind of soil.

**Produced At
The Rate Of
10,000 Quarts
Per Acre**

Westhauser Nurseries,
Sawyer, Mich.

Dear Sir: From your 2000 Premier plants I harvested 2400 quarts of No. 1 berries last summer. I did not keep count of the smaller berries. I am going to plant three to five acres.

MRS. F. L. DAVIS
Virginia

Westhauser's Improved Strain are in a Class by Themselves

See page 3

On our farms we have grown Premier for seventeen years and are known throughout the country for our vigorous, productive stock which has been built up to its present perfection. Get started right and buy Westhauser's Improved Strain.

CATSKILL is Truly Profitable

New Giant Midseason Berry

Fruit buyers, so amazed at the size of the Catskill berries grown on our farm, tipped out a box and counted twenty-six berries to a full quart.

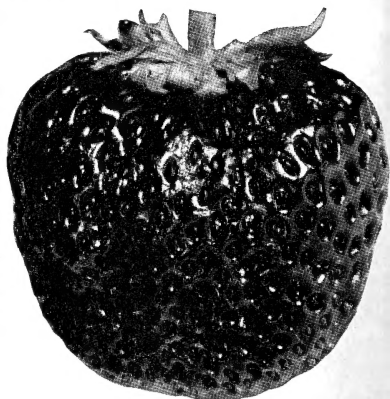

Produced 32,000 quarts from 3 acres;
sold on wholesale market for \$3,500.00.

Catskill is self-pollenizing; the berries are dazzling bright red, like Premier, size like Fairfax or larger, on strong fruit stems, and

hold their size to the last. In 1935 a three-acre lot produced 32,000 quarts of berries. The plants are large and sturdy, producing strong runners; the leaves are extra large; a free plant maker.

FAIRFAX

The Sweetest Spring Bearer

Greatly admired for their enormous size and uniform shape. Very deep, dark red, with varnished look. Blessed with a sweet, super-delicious flavor. Mighty good fancy dessert and canning berry. Wonderful shipper. Ripens medium early. Strong grower and big yielder. Self-pollenizing standard kind.

50 for90	1000 for	7.90
100 for	1.25		

DUNLAP

The Old Standby

The berries are medium to large, conical and often slightly necked, dark crimson with a deep red flesh, quality very good. The plants are healthy and vigorous. Very productive. Grows on all kinds of soil, and in extremely cold climates. The best variety for canning and a good pollinizer for pistillate varieties. It can be shipped to distant markets. Holds up a long while after being picked. Season a few days after Premier begins bearing.

GREAT MASTER

A New Late Money-Maker

Great Master is a seedling discovered fruiting a few years ago. For years we have scoured the country over for just this type of a real worth-while late berry. After watching Great Master and putting it through the most rigid tests we were amazed to find it really exceeded our fondest hopes. It is a large, real firm, fancy, glossy berry with a superb flavor of its own, outbears other late spring bearers two to one. The flowers are self-pollenizing.

The plants are large and thrifty, make many runners, but space their plants far enough apart to insure large size berries; they ripen about three weeks later than Premier and mature every berry to full size.

We feel that we have done the Strawberry world a real service by adding such a valuable variety to the Strawberry family. Watch Great Master, buy a few plants and be the first in your locality to grow this outstanding wonder berry, prolong your fruiting season and have fancy berries when others are gone.

The supply of plants of Great Master is limited. Only 500 plants to one customer.

See Page 3 for Discounts and Free Goods.

MAYTIME U.S.D.A. 2267

— Earliest —

EARLIEST COMMERCIAL variety. Originated by Dr. George M. Darrow, our federal strawberry expert. It is a cross of Missionary and Fairfax. It has proved to be a vigorous grower, has made full rows of plants for us here in Michigan. The beautiful red color of the berries is darker than Blakemore and lighter than Premier. They do not turn dark on holding. The extreme earliness is its outstanding point of value. Four good reasons to try Maytime in your locality. The BEAUTY, EARLINESS, FIRMNESS and QUALITY of Maytime make it look like a winner.

MAYTIME PRICES

50 for	1.40	500 for	6.50
100 for	2.00	1000 for	12.50
200 for	3.00		

FUJIYAMA

This Japanese variety is really well named, being named after Japan's famous largest mountain, Mt. Fujiyama. Fujiyama is the largest of all Strawberries. Berries have been known to measure 7 inches around and weigh nearly 2 ounces. Fujiyama is a home use and nearby market berry, being not quite firm enough to ship far. Makes a beautiful plant and picking row, and produces like Premier. Ripens midseason to late, and holds its size well to the end.

25 for	\$0.80
50 for	1.50
100 for	2.00
200 for	3.00

GRAND CHAMPION

Longest Season June - Bearer Ever Developed

Grand Champion was found as a single seedling on a decaying tree stump, produced 30 plants, which were set out on a space of 66 square feet. We harvested 105 quarts of berries off this setting the next spring.

Over 5000 Quarts on One-Half Acre

Two years later in spite of heavy frost while they were in bloom, and almost continuous rain during the harvest, we picked over 5000 quarts of berries from one-half acre. The tall, heavy foliage protects the blooms from late spring freezing, and then, too, they bloom over a long period, ripening a few days after Premier; bear during the entire spring Strawberry season and still compete in quality with Aroma, which is a late variety. We have picked berries over a period of over 40 days.

What Our Customers Say About Grand Champion

Wisconsin.
I want to write you about my Strawberry plants which I purchased from you last year. I was pleased with the Grand Champion—had a wonderful crop of excellent quality. I set several varieties which were good, but nothing compared to Grand Champion.

Yours truly,
ALVIN NITZ.

Westhauser's Gem are grown on new land with all its plant food and mineral elements untouched, therefore, they are outstanding for vigor and health, have extra heavy fibrous root system.

FOLIAGE. For an Everbearer, GEM is a heavy plant-maker and produces a larger fruiting row than any other Everbearer we know. The plants are very hardy, not subject to leaf blight.

SIZE AND APPEARANCE. The berries are large size, very uniform and hold their size even throughout dry weather. The color is a deep glossy, and they have a very fancy appearance.

FLAVOR. The berries are very sweet and have a flavor like the Progressive variety. The flesh of the berry is very fine grained and red clear through. Very little sugar is necessary to bring out the flavor.

FIRMNESS. The berries are extremely firm and stand long distance shipping well. If you are in the market for an outstanding firm and fancy Everbearer try GEM this year. Play safe, order now.

Gem is a Real Money-Maker

Gem's fine appearance brings top prices even in spring in competition with the best of springbearers. The appearance is similar to Premier. Gem is glossy, bright red, firm and a good shipper.

Attention! Large Commercial Growers

We have, without a doubt, the largest supply of number one Gem everbearing plants in Michigan and probably in the middle west this year. These plants were grown on specially prepared soil. You undoubtedly are aware that the Everbearing Strawberry Plant Crop as a whole will not exceed 25 per cent the country over. For quantity orders apply for special prices.

BOUGHT 5,000 PLANTS LAST YEAR, WANTS MORE

WAYZATA

**Delicious Honey-Sweet
Bears 60 Days After Planting
3 Full Crops In 18 Months**

THE HONEY-SWEET BERRY WITHOUT A FAULT

Progress marches on in the Everbearer Family. At last we have an Everbearer, WAYZATA, WITH ALL THE GOOD POINTS DESIRED. A large, uniform, firm berry, red to the core, even color all over, no green tips, drought resistant, honey-sweet flavor, and outbears all other Everbearers 3 to 1. The originator stated that he picked from June to October 901 crates from 3½ acres, which sold for \$3,100.55.

Without contradiction the best flavored Everbearer today. Customers who have tried Wayzata in a small way come back with larger orders every year, in spite of being higher in price than other Everbearers. They lose no time repaying your investment, bear the first crop 60 days after being planted until November, again a fine crop next spring and the third crop from July until snow flies and holds its size well to the end.

Wayzata is very hardy, stands 30 below zero weather, is adapted to a wide range of soils, from clay to sandy soil, the plants are large and extra heavy rooted. The foliage is dark green, stands 8 to 10 inches high, the leaves are thick, leather-like, free from leaf spots and other plant disease. The crowns often multiply tenfold or more which accounts for their heavy fruiting quality. However, since they are busy directing their energy to fruiting, they do not make as many runner plants as other Everbearers, which together with the great demand keeps the price of plants rather high. That is the reason why the plants are scarce and will be for some time to come. The Wayzata has been a "sell out" with us every year and we were obliged to return many orders. To be on the safe side, order early and have your plants reserved.

Bought 400 WAYZATA CLUMPS from us in spring, gets 1000 more for fall setting.

Missouri, October 12, '37.
Westhauser Nurseries, Sawyer, Mich.
Gents: This spring I got some of the finest WAYZATA Clump plants from you. I want 1000 more, if you can furnish them this fall, please quote prices and oblige.
W. S. DUNCAN.

Westhauser Nurseries, Sawyer, Michigan.

Dear Sir: Last spring we ordered Wayzata clumps, and they are bearing fruit now, have a wonderful flavor, would like to know if fall planting would not be just as good, or what would you suggest. We have planted others in the fall with very good success. Please let me know.

MRS. CHARLES JUDKINS.

Wayzata Clump or Combination Plants

**Grow to Enormous Size—Often 12 to 15 Inches Across.
25 Plants Will Supply the Average Family with Berries
During Summer and Fall the First Year.**

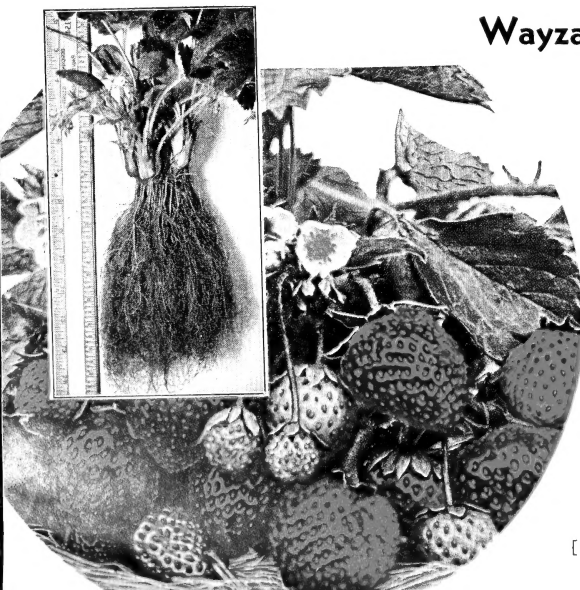

The Wayzata makes runner plants in limited quantities, but joins a number of new plants with new roots to the mother plant. This combination of plants appear as one large plant with a number of crowns, which is the reason the Wayzata outbears all other Everbearing Strawberries. Nature provides each crown with a number of fruit stems and blooms which are formed before winter, remaining dormant until plants are transplanted in spring, which come to bloom shortly after.

We have counted 25 fruit stems on a single Clump plant, the plant you see at the left has six crowns and could be divided in that many plants for individual planting. Clump plants will grow easily with such a mammoth ROOT-system to start with. Pick the first blooms off the plants, which will appear right after planting, a new set of blossoms will follow and in 3 weeks later the first berries will ripen. We recommend these large plants for hill system culture, especially for small, rich garden plots, planting them 20x20 inches apart. We have sold some orders in large lots and our customers had excellent results, ordering them in 1000 lots; see letter of Mr. Duncan above.

New GEMZATA

A New Everbearer Combining Many of the Best Features of Its Famous Parents, "Gem" and "Wayzata"

The Gemzata is a cross between the "GEM" and "WAYZATA." It is a good plant maker, and the glossy, healthy foliage is a shade lighter than that of Wayzata. Gemzata starts to bear about ten days earlier than either Gem or Wayzata; the berries are a trifle lighter in color, but resemble Wayzata in size and flavor. Only a few thousand plants available. Not over 50 to a customer.

25 for 1.75
50 for 3.00

HANSEN BUSH CHERRY

The New Quick-Bearing Cherry

Easy to Grow
Sure to Produce
Hardy Everywhere

Rapid growing shrub, can be planted singly or in groups, also makes a gorgeous hedge with its snow-white blooms. The Bush Cherry produces delicious, plum-shaped cherries, fine for eating fresh from the bush, has a wonderful flavor; excellent for jams. The bush grows four to five feet high with a 3- to 4-ft. spread. Foliage is very attractive, silvery green, turning to red and gold in fall.

PRICES:

Large 4-year-old bushes, will bear quick, 2½-3 ft., 60c each; 3 for \$1.25; 6 for \$2.00; 12 for \$3.50.

2-year-old, strong bushes, 18-24 in., 35c each; 3 for \$1.00; 6, \$1.75; 10, \$3.00; 25, \$5.75; 100, \$15.00.

Notice what beautiful flowers are produced by the Hansen's Bush Cherry. Plant anywhere in your shrub planting or on the lawn.

GLORY OF HOLLAND Carnation

Blooms All Summer

Hundreds of large fluffy deep pink flowers. Stands about 2 feet high. The beauty of each flower alone is well worth the price of plant. 40c each; 3 for \$1.00; 6 for \$1.75; 10 for \$2.90. Postpaid.

Blue Hydrangea

EACH 60c postpaid

Beautify your lawn with two or more Blue Hydrangeas, space them 2 feet apart. They grow 2 feet tall, and get more beautiful each year. Blooms pink on the new wood, and blue on the old wood. These flowers make a charming bouquet, and are the pride of your garden. Blue Hydrangea likes full sunlight or semi-shade. A teaspoonful of Aluminum Sulphate 3 times every summer provides acid. The addition of Peat Moss is very good also to make your soil more acid. Roots are hardy, and will put forth new growth even if the wood may freeze back in winter. A light mulching helps in the colder climates. 2 for \$1.00; 10 for \$4.50.

Blue Hydrangea

— See page 3

Boysenberries ~

The New Thornless

Bears Ten Days to Two Weeks Earlier

BRINGS HOME THE BIG MONEY as it ripens 10 days to two weeks earlier than its parent (the regular Thorny Boysenberry). This is a decided advantage for the grower who wants to get his berries onto the market while prices are at the top. Because it is earlier it does not interfere with your regular Thorny Boysenberry that commences to ripen when the Thornless crop is about all cashed in. The Thornless bears as heavy, if not heavier, than the Thorny Boysenberry.

FLAVOR. Like its parent plant, whose reputation is known the country over for its pleasing flavor, the Thornless also have a pleasing flavor; that is, just a little more spicy. It seems to us that the red raspberry flavor predominates.

Buy a Proven Strain

The Thornless Boysenberry is a sport or offspring of the regular Thorny Boysenberry. While many Boysenberry plantings have had occasional thornless "sports," they have been found to be valueless. Let that be a warning to the wise, be sure to get your plants from a proven strain. The sport our strain originated from is a distinctive success. It has all the characteristics of its parent (the regular thorny type Boysenberry), except that it has no thorns, which makes it convenient and a pleasure for the home gardener to pick and handle. Since it is easier to handle, it means a labor saving to the commercial grower.

Order Now

Or as soon as possible and be the first in your neighborhood to grow this outstanding new berry.

**HAD REGULAR BOYSEN-
BERRIES—WANTS
THORNLESS, TOO**

New York.

About 3 years ago I ordered the regular Boysenberries from you. Sold all my berries to a local fruit store. If your Thornless Boysenberries are as good as the regular Boysenberries, I want some of those, too.

G. A. CLAYTON.

**BOYSENBERRIES
CREATED A
SENSATION**

Mr. Wm. Tynsdale, of Washington, writes: "The Boysenberry plants that I bought last year raised their first crop this year and what a sensation they created; the talk of the community; unable to supply the demand, I have had lots of demand for plants."

For a LONG SEASON Plant Both BOYSENBERRIES

Whether for a home garden or a commercial planting grow both kinds of Boysenberries and prolong your fruiting season.

How to Grow Boysenberries (Both Types)

Set plants 8 by 8 feet apart, both in and between the rows, as the root system spreads out considerably in search of moisture and plant food. The Boysenberry makes a very thrifty growth the first year. The vines often grow 10 feet. Let the vines creep on the ground the first year, and in the more northern states, the extreme North, cover lightly with straw, leaves or soil before the hard freezes begin, just to be on the safe side. In the spring remove this covering, and when the Boysenberry commences to bud, tie the vines to a trellis or wire, stretched on posts about 2½ feet from the ground. Right after fruiting, cut old vines down to ground, remove and burn them, this throws all the strength and energy into the roots for producing young vines, as it is these young vines that bear the fruit crop the following season. As outlined above, leave the young vines on the ground during fall and winter; in the spring, tie them to the trellis, etc. Repeat this practice year after year.

Photograph taken in early spring to show clearly how to arrange Boysenberry canes on wire for best results.

WESTHAUSER'S Heavy Bearing Strains — Established Money Makers

Regular Boysenberry

THE ESTABLISHED COMMERCIAL VARIETY

For five years editors of farm and garden magazines have written about this new king of all **bramble** berries. Has produced 11,500 one-pound baskets per acre, which sold for \$1,737.50 on a roadside stand. The berries are 1½ to 2 inches in length, color a beautiful purple, similar to Youngberry, but more highly flavored and less seedy.

Buy Westhauser's Northern Grown Plants

Large, Thrifty, Heavy-Rooted—They Are in a Class by Themselves for True Quality

The Boysenberry was originated in California. Six years ago we bought our plants from that source, with the intention of developing and hardening them in our northern climate. We believe that we are the largest growers here in the North of hardy Boysenberry plants. They have come through below-zero weather splendidly. Today about 50 per cent of Boysenberries offered are still southern grown plants. Be safe and buy our **hardy, northern grown** plants.

The Flavor of Boysenberry is Superb

It is a mild, rich, pleasing blend of the Raspberry, Loganberry, and Blackberry. You will be proud of your Boysenberries, your neighbors will admire them, and you will agree with us, saying that they are the finest berries you have ever tasted, either fresh, canned, in pies, jams or jellies.

New MacDonald Red RHUBARB

The last word in Rhubarb. In describing this variety, Prof. L. G. Bunting, of MacDonald College, in Quebec, Canada, where it originated, states: "It is a very highly colored, attractive red stalk, of large size, productive, very tender and succulent, and of excellent quality, and particularly valuable for pies and desserts. Its color, when cooked without peeling, is as attractive as that of Raspberries." Not grown from seed. Plants propagated from divisions. Try some this year. You'll like it: 40c each; 3 for \$1.00; 6 for \$1.40; 12 for \$2.50.

Westhauser's One-Tree Orchards

Here is just the thing for you folks who have just a limited amount of space. We have had our growers graft five different varieties all on one sturdy trunk, giving a variety of colors and flavors, and a long season of bearing since we have put both early and later varieties all on the same tree.

5-N-1 APPLE

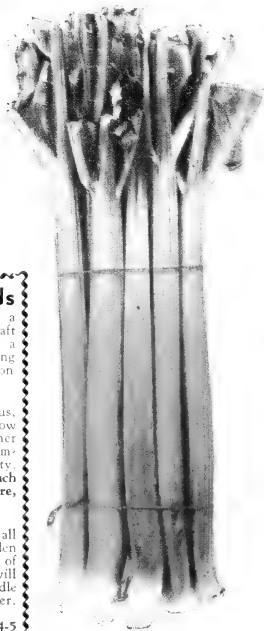

Dark Red Jonathan, Yellow Delicious, Red Delicious, Wealthy, and Yellow Transparent. Apples from early summer to late fall. Be the first in your community to have this worthwhile novelty.

We offer these trees in 11/16 inch grade, 5 to 6 ft., \$1.50 each; 3 or more, \$1.40 each, less discount.

5-N-1 PEACH

Here are five fine Peach varieties all on one tree: Elberta, Red Bird, Golden Jubilee, J. H. Hale, and Belle of Georgia. It takes little space and will furnish you with Peaches from middle of August until the first of October. Order now.

We offer these 9/16 inch grade, 4-5 ft., \$1.35 each; 3 or more, \$1.25 each, less discount.

The Best ASPARAGUS

for Home and Commercial Planting

WESTHAUSER'S *Rust-Proof Strain* Martha Washington Asparagus

The demand for this delicious vegetable increases every year—the first greens from your own garden in spring. 100 to 150 roots will supply the average family.

FOR COMMERCIAL GROWING

The first money crop in spring. Fancy stalks for stores and markets; the No. 2 grade for canning and canning factories; easily harvested. Here in Michigan the harvest commences the latter part of May. An asparagus patch once established will last from 10 to 20 years. 5,000 roots plant one acre.

NEW PARADISE ASPARAGUS

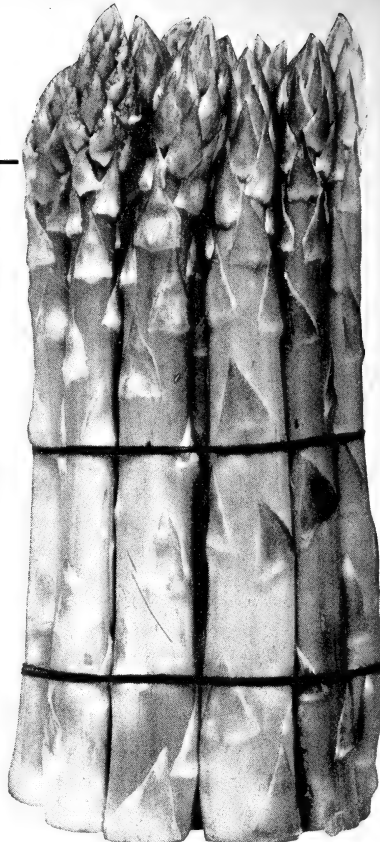

Giant Stalks—Will Bear Next Year

Save a Full Year—Plant This Spring—Harvest the Following Year!

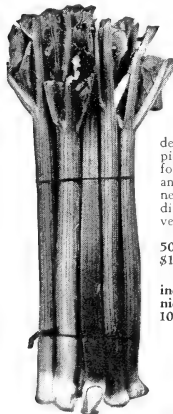

Matures one year earlier. Very large stalks of exceptionally fine quality; unusually heavy producer. Here we have a better Asparagus that grows a larger crop a FULL YEAR EARLIER, and continues to bear heavier crops year after year. That means returns ONE YEAR SOONER and larger returns each year after that. It means MORE PROFITS IN LESS TIME.

The tender, crisp stalks are so large it takes only 6 to 8 to make a pound. In taste it is milder than other varieties. For the home gardener it is the best possible variety to plant because the same space occupied will produce so much more, and better Asparagus. Paradise Asparagus, like Martha Washington, is highly resistant to rust.

PRICES: 2-yr., large roots, 12 for \$4.50; 25 for 80c; 50 for \$1.50; 100 for \$2.25; 200 for \$4.25; 300 for \$6.00; 1000 for \$15.75.

Martha Washington

Rhubarb

Rhubarb

MYATT'S LINNAEUS

Rhubarb should be grown in every garden; it provides material for early spring pies and delicious sauce. It is also valuable for canning. Plant a few roots this spring and you will have a supply of early fruit next year. This wonderful new variety is different from the old sorts. The stems are very large and tender; yields very heavily.

1-yr. roots: 10c each; 6 for 40c; 12 for \$0.80; 25 for \$1.00; 100 for \$3.00; 1000 for \$18.00.

GIANT 1-yr. clumps, main roots 1½ inches with several crowns, will produce a nice crop this year. 25c each; 6 for \$1.25; 10 for \$2.00.

Horseradish

HORSERADISH ROOTS do best in rich, loose soil, set slanting and covered two inches.

Crowns, each 10c; 4 for 25c; 12 for \$1.00.

RED LAKE

The New Currant

Out-bears Others Two to One

Double your crop and profits by raising these big, very productive Currants. The bushes are thrifty and exceptionally hardy, very easy to grow. The berries are a pleasure to pick, being large, dark red in color, and on long, well filled bunches. Originated in the Northwest where the temperature reaches 40 below zero. They ripen in early midseason and last over a long period. Order early; supply limited. 2-yr., No. 1 plants, 45c each; 3 for \$1.00; 10 for \$2.90; 25 for \$5.90; 100 for \$20.00.

Downing GOOSEBERRY

Large, green fruit, fine flavor, and thrifty grower. 2-yr., No. 1 plants, 35c each; 2 for 60c; 10 for \$2.70; 25 for \$6.25; 100 for \$15.00.

Westhauser's BLACKBERRIES

CERTIFIED FREE OF DISEASE by Michigan State Department of Agriculture

Eldorado
Blackberry

Two-Year Bearing Size TRANSPLANTS

If you want a crop of Blackberries this year, our transplanted root cutting plants will do it. They are sturdy and have a fine root system. They have been reset in nursery rows for 2 years, and will bear fruit a few months after planting. Of this variety, we have only a limited amount, so order now and play safe.

nated in Michigan, the state that produces fruit with the flavor. The color is a glossy jet black, the flavor sweet and delicious, and it is nearly seedless and coreless. A hardy plant that produces mammoth berries, often 1 3/4 inches long. It does equally well in cold sections. Why not include a few in your order and get started raising this profitable berry?

ELDORADO Productive, Firm and Profitable

The choice of the commercial grower and housewife for the good old-fashioned jams, pies, preserves and fresh fruit for the table coming just after raspberry season, when but little other fruit is available. They ripen 10 days after dewberries and the harvest extends to the fore part of September; they are the last of all spring and summer berries in the season and the trade is willing to pay well for them. The canes grow sturdy and upright, and are hardy enough to need no winter protection.

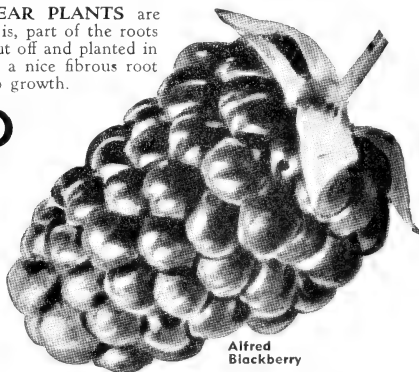

The berries are large, uniform in size, jet black, and do not turn red after being picked. They have a flavor that always calls for more and are firm enough to ship to distant markets, assuring good prices.

Its hardiness and freedom from disease, especially orange rust, the common enemy of all Blackberries, has made ELDORADO the leading variety with the commercial grower.

ELDORADO 1-YEAR PLANTS are individual plants; that is, part of the roots of the old plants are cut off and planted in spring. They produce a nice fibrous root system and a good top growth.

American Wonder Lemon

GROW LEMONS INDOORS ON SMALL PLANTS

Easily grown in a pot like a Geranium. This little plant is unique, interesting and useful. The waxy white flowers that appear several times during the year are fragrant as orange blossoms, and are followed by very large lemons (often weighing from 1 to 3 pounds), that are delicious for lemonade and culinary purposes. Seldom grows over 3 feet; can be kept smaller if desired. PRICES: 40c each; 2 for 70c; 3 for \$1.00. PRE-PAID.

American
Wonder Lemon

IMPORTANT NOTICE

Because of quarantine we cannot ship Lemon trees to any of the following states: Alabama, Arizona, California, Florida, Georgia, Louisiana, Mississippi, Texas and Porto Rico.

GIANT HYBRID BLUEBERRIES

ONCE PLANTED — LAST A LIFETIME

Profitable — Beautiful — Very Ornamental

The Cultivated Blueberry produces juicy, delicious berries two to three times as large as common Blueberries, resembling in size a bunch of Delaware grapes, and selling for 40c to 60c a quart.

They are beautiful ornamental bushes reaching 8 to 10 feet in height with pinkish white, bell-shaped blossoms, and long, narrow, dark green foliage that turns coppery red in fall. An improvement in every home planting.

CROSS POLLENIZATION. At least **two plants** should be planted for cross pollenization. This insures more berries.

Fancy 1-Year Plants — Vitamin B-1 Treated

GUARANTEED TO START

Before shipping, the root system of each one-year-old plant is treated with a Vitamin B-1 solution, then bedded in Peat Moss and wrapped in wax paper. This is certain to give the plants a very much easier start. These plants are especially recommended for the commercial grower. **WRITE FOR PRICES ON QUANTITY LOTS.**

2-Year Transplants

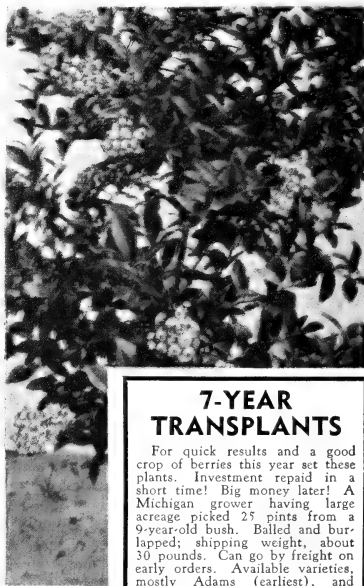

GAIN A YEAR by setting these nicely branched, 2-year transplants with correspondingly heavier root systems. Packed in Westhauser's Blueberry grower (see next page), that can be used in transplanting.

**3-Year Transplants
—Will Bear This Year**

Heavy branched canes whose root systems are comparatively heavier, with a good setting of fruit buds; will bear this year. Packed in Westhauser's Blueberry grower (see next page), which can be used in transplanting. 12-15 in. plants. See special offer on next page.

4-Year Transplants — 18-24 inch Plants

Thrifty, well proportioned bushes! Near the full-fruiting stage! Well packed in Westhauser's Blueberry grower (see next page), which can be used in transplanting.

7-YEAR TRANSPLANTS

For quick results and a good crop of berries this year set these plants. Investment repaid in a short time! Big money later! A Michigan grower having large acreage picked 25 pints from a 9-year-old bush. Balled and burlapped; shipping weight, about 30 pounds. Can go by freight on early orders. Available varieties, mostly Adams (earliest), and Rubel.

7-YEAR, 2-3 ft.

2 for	5.50
4 for	10.00

THREE PROVEN VARIETIES

After much experimenting and study we decided on the following varieties and will supply our trade as long as they last. However, we reserve the right, in case we are sold out of some variety, to substitute any of the three.

RUBEL. One of the most vigorous growers, upright, very good grower, and the heaviest producer of them all. Fruit is large but a little tart. Good shipper. Leaves turn red in fall. Very ornamental. Fruit borne in clusters.

RANCOCAS. Vigorous, upright grower. Very productive. Fruit sweet and fine flavor. Ornamental. Fruit borne in clusters. Midseason to late.

JERSEY. Ripens a few days later than Rubel. Bush is upright. The berries are of good quality, large and firm. A favorite with the commercial grower.

HOW TO GROW BLUEBERRIES SUCCESSFULLY

We recommend that you make openings at least 3 times as large as the roots so that they can be received in the opening spread out and without crowding. The dirt you take out of the hole should be mixed 50-50 with some acid material, in other words mix dirt with equal quantity of decayed leaves, rotted straw, vegetable refuse, or Westhauser's Blueberry grower, and fill in the opening; firm well around the roots. We further recommend that a handful of sulphur be put around the plants in the spring. Give each one-year plant half an ounce of Sulphate of Ammonia; for older plants increase at the rate of half an ounce for each year.

Caution: Care should be taken so that you do not spill any of the Sulphate of Ammonia on the foliage. This is very inexpensive and can be purchased from your local feed or hardware store.

Write the U. S. Department of Agriculture, Washington, D. C., for Bulletin on Cultivated Blueberries. It's free.

Insure SUCCESSFUL PLANTING With WESTHAUSER'S Blueberry Grower

This Acid Peat Moss consists of dry acid vegetable humus, nitrogen, phosphate, and other minerals. Holds about 15 to 20 times its own weight in water. For Blueberries and Evergreens it makes growing success doubly sure. As a soil conditioner it adds humus and the most important minerals to the soil, and makes other minerals available. Westhauser's Blueberry Grower weighs approximately 75 to 100 pounds per 2-bushel bag, and we recommend that you have it shipped by freight early in the season, as freight is cheaper than express. We also call your attention to the fact that the freight rate on 2 bags (4 bus.) would not be much more than on 1 bag (2 bus.). **PRICES:** 1 bag (2 bus.), \$1.00; 2 bags (4 bus.), \$1.90; 5 bags (10 bus.), \$4.00; 11 bags (22 bus.), \$7.00. These prices are net, no discount or free goods allowed.

UNUSUAL NOVELTIES

Crystal White Blackberry

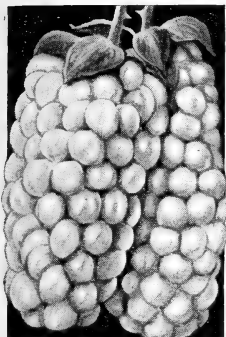

Strange as it may seem, this is a real creamy white blackberry. Mixed with the jet black ones for dessert, it makes a most wonderful dish. The fruit is about the size of Alfred with few seeds and quite sweet when fully ripe. The bushes are good, strong growers and very productive. This is not a worthless novelty, but a fruit of real value, and should be in every garden. Two-year giant transplants, bushes which will bear a good crop of berries this year, starting in August.

1-yr., No. 1—20c each; 6 for 90c; 12 for \$1.50; 25 for \$2.50.

Juneberry

Juneberry

Rare Ornamental Flowering and Fruiting Shrub

Is a tree-bush, grows to 6 feet high and spreads wide at the top; stems are shiny red in the winter, covered with white blooms early in the spring, thus making it a rare ornamental shrub. The blooms are followed by large, grape-size berries, reddish purple. Flavor like blueberry or huckleberry but not as acid. Edible and relished by all. **Prices:** 2 to 3 ft. tall, \$1.00 each; 3 for \$2.50; 6 for \$4.00.

Juneberry Bush

A BARREL OF STRAWBERRIES AND A BARREL OF FUN

Grow any everbearing Strawberry in a barrel. Fifty plants can be planted in a common sugar barrel, or even an old potato barrel. Bore 2-inch holes in the side of the barrel, and fill with some good soil. Then set the plants in these holes, and 10 plants on top. Keep well watered. Bore a few small holes in the bottom for drainage. No weeds, no cultivation necessary. Keep runners pinched off. **25 GEM and 25 MASTODON 90c**

Norway Spruce

NOTICE

We recommend these heavy-rooted transplanted evergreens, which can be shipped by mail. If properly planted should make a 100% growth.

Black Hills Spruce

Beautify Your Home and Grounds with WESTHAUSER'S EVERGREENS

NORWAY SPRUCE. Deep green foliage, excellent for windbreaks; an ideal Christmas tree. Fast grower. Twice transplanted.

TSUGA CANADENSIS. (Hemlock). Valuable for landscape use in partial or heavy shade, or on north side of buildings. Makes a regular conical form tapering evenly from a broad base to a long thrifty shoot. Thrifty, heavy rooted trees, twice transplanted.

PFITZER'S JUNIPER. Low, horizontal growing evergreen with bluish tint, foliage fine in texture. They are very graceful and particularly useful for foundation planting, in rock garden and in front of taller evergreens. Packed and shipped with sufficient peat moss to insure good growth.

IRISH JUNIPER. Very symmetrical in outline. Glaucous green foliage. Usually grower not more than 8 or 10 feet in height with a very narrow diameter. These heavy-rooted trees are twice transplanted.

COLORADO BLUE SPRUCE. Its steel-blue, glistening foliage makes it desirable for lawn or grouping. Nice bushy trees. Will make rapid growth from now on. They have a wonderful root system; twice transplanted; packed with sufficient peat moss to insure good growth.

BLACK HILLS SPRUCE. The hardiest of all Spruce. Bushy in habit, and symmetrical. Foliage varies from a bright green to blue tint. Slow grower, often seen in foundation plantings.

Colorado Blue Spruce

Doorstep Planting

2 Irish Juniper, 12-15 inches.
2 Pfitzer's Juniper, 10 inches.

EARLY WONDER THORNLESS

Trademark Applied For

Westhauser's New Red Raspberry

IT'S EARLY! IT'S THORNLESS! This variety was discovered here in Michigan several years ago by Mr. Henning, who found it growing in a patch of Lathams. Now he grows the Thornless Red Raspberry EXCLUSIVELY. Early Wonder is a combination of tested and proven merits. The large, sturdy plants have silky smooth wood, no stickers. The berries are large, beautiful bright red, and very firm, excellent shippers. A delicacy either fresh or canned. The housewife's delight.

Seeing Is Believing

Wide awake nearby fruit growers have watched this berry with keen interest and have paid fancy prices for a few plants to get started with so as to get in on the early profit. IT MUST BE GOOD, as these fruit growers are constantly enlarging their plantings and are discarding other varieties.

**STOCK &
KEEN BIDDING
SHOVES 'REDS'
OVER \$4 MARK**

from St. Joseph Herald-
Press of June 28, 1941.

Get In On the Early Profit

A single 24-pint crate of the first berries of the season brought \$13.00, (3 crates sold for \$13.00), on the Benton Harbor Wholesale Fruit Market, the largest market of its kind in the country. Early Wonder brought over \$4.00 a crate on June 28th, after three weeks picking, according to the Herald-Press Newspaper (see actual reprint on the left). Early Wonder bears over a long fruiting season, ripens ten days to two weeks earlier than Latham and holds its own to the last of the Raspberry season.

HENRY L. HENNING
Discoverer of Early
Wonder Thornless
Red Raspberry

Labor Saver

Commercial growers will appreciate these stickerless plants as they can be handled easier, and more cheaply. The home gardener will enjoy raising these Thornless Red Raspberries.

Sold Exclusively by Westhauser's Nurseries

After years of constant observation of the habits of this berry we have come to the conclusion that Early Wonder should be introduced to the Raspberry World, and made available for all Raspberry lovers.

We have only a limited amount of these plants to offer our customers for 1942. Order now before our supply is exhausted, obliging us to return your money. Why wait until 1943 to get your start? Be the first in your locality to introduce this outstanding variety.

Two-Year Fruiting Size Plants: \$1.00 each; 2 for \$1.75; 6 for \$4.00.

MORRISON BLACKCAP

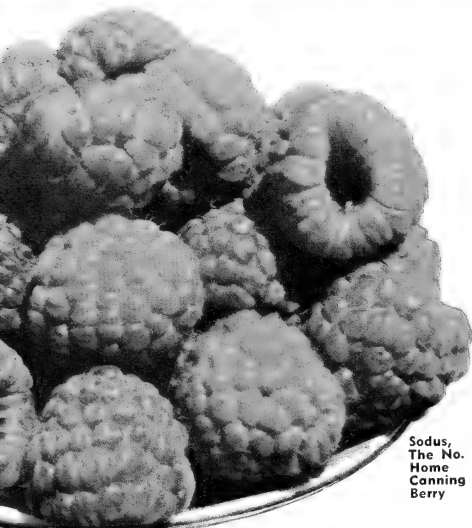

The Elephant of the Blackcap Family

Even larger than the famous Cumberland. This new Blackcap was found growing wild in Girard, Pa., by county agent Paul Croosman of Erie County. Mr. Croosman was attracted by the unusually large berries, many of them an inch in diameter. The plants are strong and very thrifty, also free from disease. Fortunately we obtained a small quantity of these plants last spring, at a fancy price, for our own propagating purposes, and now we have a limited amount of hardy, northern grown plants available for our customers. Order early. As soon as this limited supply is sold we will be forced to refund your money.

PRICES: 1-yr., No. 1 plants, 35c each; 6 for \$1.25; 12 for \$1.75; 25 for \$2.75; 50 for \$4.25; 100 for \$8.00. 2-yr. transplants, large bushes, will bear this year, \$1.00 each; 3 for \$2.00. All less discount, see page 3.

TAYLOR

The New Mammoth Size Streamlined Red Raspberry

25 Plants Now Only \$1.25

This new berry was introduced by the New York Experiment Station, tested over a period of years. The berries are very large, bright red, oblong-shaped, small cavity, uniform in size throughout season. Ripens a little later than Latham, and bears over a long season. Plants are tall, disease free; rigid, tree-like canes support heavy loads of fruit.

"Golden Queen" Raspberry

Six Extra Large 2-Yr. Plants Only \$1.85

This new yellow Raspberry is much sought after as a novelty for the home garden. The rich golden yellow berries are very attractive in appearance, and deliciously sweet in flavor. They are a delicacy for eating fresh from the bushes and for table use. The berries resemble the Cuthbert in size and shape. The canes are hardy, sturdy, upright growing, almost thorn-free. Large two-year plants will start fruiting this year. Supply limited.

GOLDEN QUEEN PRICES

No. 1 plants, 20c each; 6 for 90c; 12 for \$1.50; 25 for \$2.50. 2-yr. Transplants, bearing age, 35c each; 3 for \$1.00; 6 for \$1.85; 12 for \$3.00.

SODUS The No. 1 Home Canner

25 Plants Now Only \$1.40

There is no comparison at all with other Purple caps, the large, round, meaty berries, measuring 1 to 1½ inches, have a delicious mild flavor, and are preferred by canners to either the red or black Raspberry for jellies, pie and marmalades. The fruit is bright reddish purple; the seeds are very small. It is especially good to eat fresh. The berries do not crumble, and cling to the branches long after ripening. Bushes are very thrifty, healthy, disease free, upright growers that attain the height of four or five feet.

LATHAM The Standard Commercial Red

Now Only \$1.75 for 50 Plants

Latham has made good as the best medium to late variety in all sections of the country.

Originated in Minnesota where the severe winters are a test,

but it does not winter-kill even at 45 degrees below zero. This is a large, most beautiful and profitable red Raspberry. Rich, dark red berries an inch in diameter are quite common.

They stick to the stem days after they are ripe when other varieties would soften and fall to the ground. The fruit is firm, making it good for canning and shipping, as well as for table use.

CUMBERLAND MIDSEASON BLACKCAP

The Leader of the Blacks

50 Plants Now Only \$1.60

Handy Garden Assortment

25 1-Yr. No. 1 Latham Red Raspberry.

25 1-Yr. No. 1 Cumberland Black Raspberry.

\$1.49

No Discount.

25 1-Yr. No. 1 Taylor Red Raspberry.

25 1-Yr. No. 1 Logan Black Raspberry.

\$1.59

No Discount.

The leader among all black raspberries.

This is the most popular with growers, as it does well in any climate or any well drained soil. The large, rich, black berries present such an attractive appearance that buyers pay the top-notch prices for them. Excellent for table use and canning. The Cumberland sets so many berries that it is necessary to give them a severe trimming, as the plants could not hold up if all the berries came to mature size.

On the Benton Harbor market, the largest cash fruit market in the world, more Cumberlands were brought than any other black raspberry, a fitting testimonial to its high regard by the grower and consumer. In years past we have had to return many late orders with the disappointing words: "Sold out." Moral—Order Early!

New Logan Blackcap The Earliest Black Raspberry

The best dependable early Blackcap. In some localities where it has been grown for the past few years, Logan has almost displaced other early varieties. Ripens a week to 10 days earlier than Cumberland, which allows the grower to get in on the early market, when prices are high.

Berries are as large as the Cumberland, bears as heavily and ripens a week ahead of Cumberland. This gives the grower a chance to make some real money. One of the New Logan's outstanding characteristics is its resistance to mosaic and other Raspberry diseases. We have a fine lot of thrifty plants to offer. Prices at left.

INDIAN SUMMER

The Giant New Everbearing Red Raspberry
TWO CROPS IN ONE YEAR!

12 Extra Large Plants Only 90c

Earliest to ripen in late spring, top prices are assured as it has the Red Raspberry market all to itself. The berries are long, deep red, small cavity, very rich in flavor. Plants are hardy, tall and very productive. At this writing, on the 4th of October, we are picking Indian Summer berries and expect to do so for a whole month. The writer brought a single twig to the office loaded with 129 berries ripe and green. What a sight of beauty to behold!

GAIN A WHOLE YEAR!—Bearing Age Raspberries

Made Double Entire Cost of Plants the First Year!

MR. W. J. BEUSCHLEIN
OF DETROIT, MICH., WRITES:

"I want to tell you about the Latham transplants I bought of you. I set out 500 plants in March and in July I sold enough of these wonderful berries to pay for more than double the cost of the plants. I never heard of such a remarkable record for the first year. Next spring I will set out five acres; can you supply me with plants? I am more than satisfied and thank you for your co-operation."

QUALITY

Following are the Most Valuable Winter Apples

DOUBLE RED DELICIOUS. (Fall, winter.) This new Double Red Delicious colors about 3 weeks earlier than the common Delicious. In August, when the regular Delicious are still green, Double Red Delicious are red all over and are ready to bring fancy prices. Our supply is limited—order early and play safe.

JONATHAN. (Late fall, winter.) Grand, good winter Apple. Bright, solid red. Flesh white, sometimes tinted with red; firm, fine, crisp and tender. A splendid family sort and highly profitable for market. Tree long-lived, productive and an early bearer. Keeps well and will stand much handling.

TURLEY'S WINESAP. (Winter.) The old Winesap did not have enough red color. Turley's Winesap is a cross between a Rome Beauty and a regular Winesap; is dark red when ready to pick. One of the firmest Apples; keeps until spring.

MCINTOSH. Medium in size. Fruit is beautiful red, somewhat striped. Flesh is white, crisp, and highly flavored. The tree is hardy and vigorous, and starts to bear young, and heavily. It is a favorite market and eating Apple. Ripens in September and October. Good storage Apple.

YELLOW DELICIOUS. Best yellow Apple. It bears young and heavily. The fruit is large, juicy and of exceptionally fine quality. Very hardy; good keeper.

SNOW APPLE. Medium. Deep crimson, flesh white, very juicy and tender.

**Double
Red Delicious**

The Best Early Summer and Fall Apples

YELLOW TRANSPARENT. (Early.) The finest extra early yellow Apple. Ripens late in July and continues in season until September. Fruit good size, waxy yellow. Flesh white, mild, juicy, sweet.

WEALTHY. Ripens late summer and early autumn. Perfectly hardy, vigorous and productive. Fruit large, red streaked with white. Quality good. A profitable market sort.

Haralson

New HARALSON

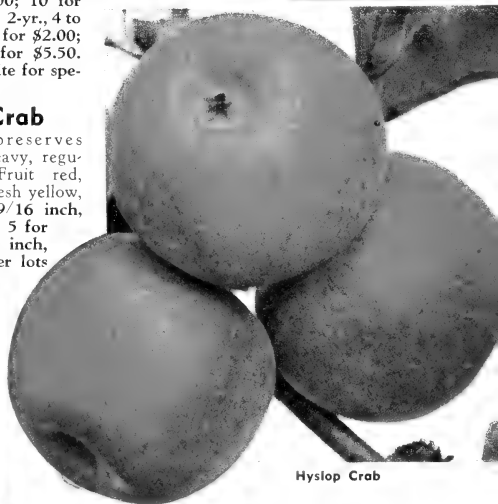

This new variety stands in a class by itself on account of its hardness. It is the coming Apple for the cold Northwest. Comes into bearing very early in life, and is a vigorous grower. Fruit is good size, red and long keeping. Very good eating Apple. If you are looking for an Apple that will bear where it gets 40 degrees below zero, order Haralson.

7/16 inch, 2-yr., 3½ to 4 ft., 50c each; 3 for \$1.50; 6 for \$3.00; 10 for \$4.50. 9/16 inch, 2-yr., 4 to 5 ft., 75c each; 3 for \$2.00; 6 for \$3.75; 10 for \$5.50. For larger lots write for special prices.

THE PEACH - GROWING CENTER

Rio-Oso-Gem

At Last—a Self-Pollenizing Freestone Peach—
with All the Good Points

**FIRST IN
SIZE—FLAVOR—BEAUTY—FIRMNESS**

It is the largest peach of them all, averaging $2\frac{3}{4}$ to $3\frac{3}{4}$ inches across. Globular shaped. Almost free from fuzz.

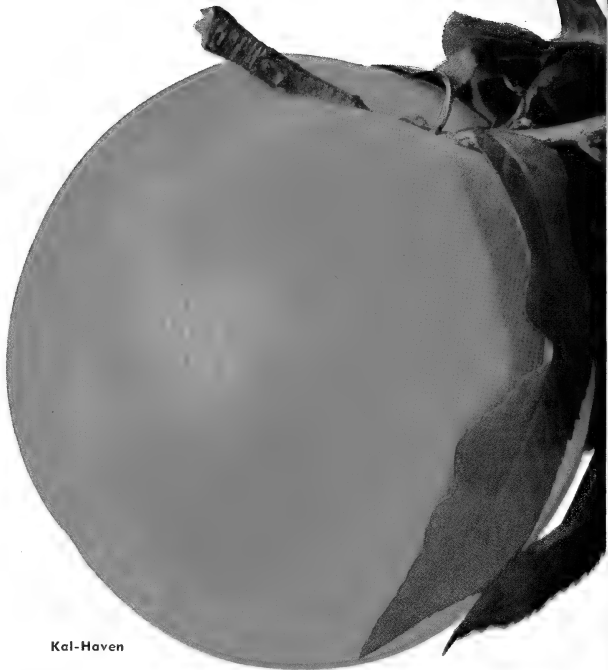

Oh! What a flavor! Rich—sweet—juicy—slightly spicy.

It's a beauty with its dashing, brilliant red blush, and its fine grained yellow flesh, that is red at the pit.

Tree bears young and is regularly productive, requiring annual thinning. It is hardy. Rio-Oso-Gem has been grown here in Michigan for the past few years, and will succeed wherever peaches are grown. One commercial grower is so enthused with Rio-Oso-Gem that he contemplates setting 60 acres of this wonderful variety.

It brings top prices. Buyers are instantly attracted by its size, beauty, and firmness of skin and flesh which makes it an excellent shipper. Then, too, it ripens a week to 10 days later than Elberta, thus prolonging the peach season.

Westhauser Nurseries are licensed distributors of this fine new peach in the following states only: Indiana, Illinois, Ohio, Missouri, Iowa, Wisconsin, Minnesota and Michigan.

KAL-HAVEN

THE PERFECT HARDY NORTHERN PEACH

Originated here in Michigan by our Department of Agriculture, who made THOUSANDS of crossings to develop this fine new Peach. The large fruit is brilliant yellow with highly colored cheek, exceptionally fine flavored. Its thick skin makes it an excellent shipper. A freestone that ripens a few days before Elberta. Trees are thrifty growers. All in all its enormous size, beauty, hardness, shipping and keeping qualities make Kal-Haven a desirable Peach for your collection. Don't fail to include it on your Peach list!

ELBERTA

Midseason. The Standard of All Peaches.

The outstanding midseason variety by which all midseason Peaches are judged. Grown over the entire country for both commercial and garden purposes. Very large, yellow with red blush cheek, very juicy, highly flavored. Hardy, vigorous grower, does well in all peach-growing sections. Ripens fore part of September. Write for special prices on large quantities.

FERTILE HALE

U. S. PLANT PATENT No. 175

At last we have a Peach as showy and as large in size as the J. H. Hale, which does not require interplanting in order to cross-pollinize. The trees are more vigorous and harder in bud than the J. H. Hale; test trees of the Fertile Hale at the Michigan State Experiment Station came through with a crop when the J. H. Hale and Elberta had practically a crop failure. This again proves extreme hardiness for this remarkable variety. The Fertile Hale ripens about 5 days after the Elberta; color yellow with deep carmine blush; a good shipper. This variety should by all means be included in every orchard planting. This patented Peach is handled under a license. Prices are net, no discount.

**HALE-
HAVEN**

(Early Yellow Freestone)

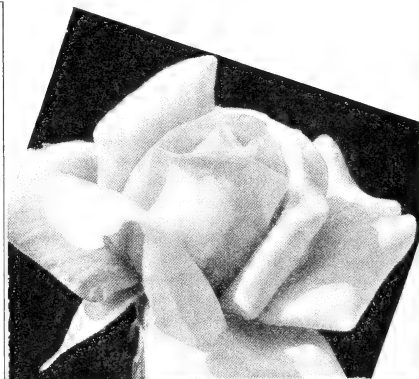

This wonderful new Peach was introduced by the Michigan State Experiment Station, South Haven, Michigan. It is a cross between South Haven and J. H. Hale. A large, beautifully colored, yellow-fleshed Peach ripening about 2 weeks before Elberta, a perfect freestone, extremely high color; colors a few days before it is ripe on the tree, therefore can be picked reasonably green for long distance shipping. Write for special prices on large quantities.

CHERRY TREES

We list only the finest varieties

WINDSOR

(Sweet). A late variety, valuable for market and desirable for home use. Fruit large, dark red. Flesh firm and sweet. Resists rot and clings to tree long. Write for special quotations on larger lots.

PRICES:

4 ft. and up, 9/16 in. strong caliper, heavy root systems. 65c each; 3 for \$1.70; 4 for \$2.70; 10 for \$5.25; 25 for \$12.50; 50 for \$23.50; 100 for \$44.50. 3-yr.-old trees, \$1.00 each.

LARGE MONTMORENCY

The Best Sour Cherry

Best large, late pie Cherry, ripening the latter part of June. The fruit is extra large, bright red, firm, and fine for shipping. A strong grower, perfectly hardy, bears young, and a full crop. This variety is very scarce the country over; order early and avoid disappointment. Write for special quotations on larger lots.

PRICES:

4 ft. and up, 9/16 in. strong caliper, heavy root systems. 50c each; 3 for \$1.40; 5 for \$2.20; 10 for \$4.25; 25 for \$8.50; 50 for \$16.00; 100 for \$31.00. 3-yr.-old trees, \$1.00 each.

SCHMIDT

The Best Dark Sweet Cherry

An excellent market Cherry. Fruit is very attractive and keeps well. Deep crimson-red color. A heavy producer of extra large, tender, juicy fruit. Write for special quotations on larger lots.

PRICES

Stanley Prune Plum

The best prune type plum. BEARS SECOND YEAR, BIG YIELDER EVERY YEAR.

Gets top prices on the market as it ripens 10 days earlier than other varieties. It is a freestone with beautiful bluish purple skin, and luscious golden flesh that has a rich, mild sweet flavor. A real treat either fresh or canned. When canned the fruit is wine-red all the way through. Requires very little sugar, holds its shape and retains skin in cans.

Green Gage Plum

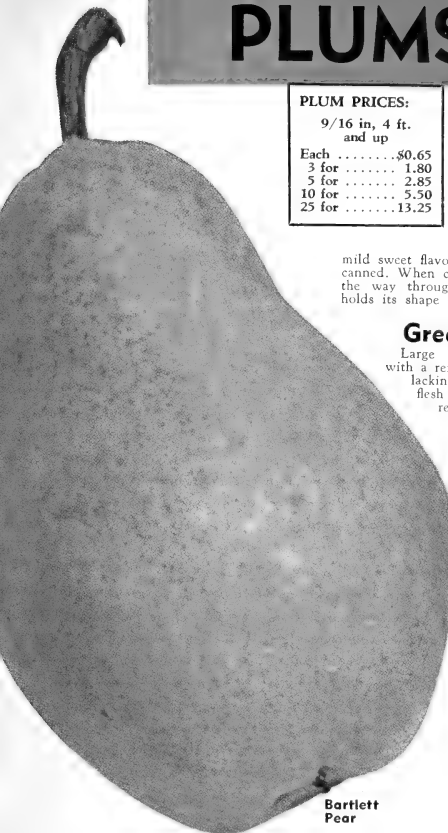

Large round greenish yellow plum with a remarkable sweet flavor. Almost lacking of any acid. Tender yellow flesh with freestone pit. Hardy, regular bearer.

PEARS

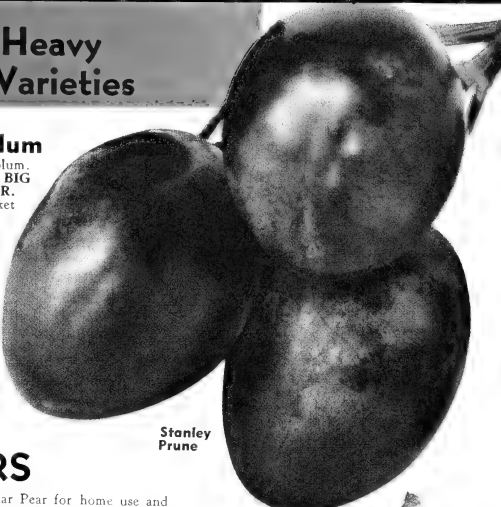

BARTLETT. The most popular Pear for home use and market; a leader among canning Pears. Large, golden yellow with reddish blush on the sunny side. Flesh tender, melting and juicy, with delicious, musky flavor. Tree vigorous, erect, bears abundantly. Price: 9/16 in., 4 ft. and up, 60c each; 3 for \$1.65; 5 for \$2.60; 10 for \$5.00; 25 for \$12.00.

KIEFFER. (Fall.) Large, handsome appearance; rich golden yellow, sometimes tinted red on the sunny side; bears largest, most consistent bumper crops. Wonderful keeper and an astonishing long distance shipper. Tree hardy, very strong grower, bears at an early age, producing phenomenal crops. Price: 9/16 in., 4 ft. and up, 50c each; 3 for \$1.35; 10 for \$4.25; 25 for \$8.75.

SECKEL. One of the richest and highest flavored Pears known; always in demand for desserts and luncheons and better known than any Pear of its class. The tree makes a somewhat slow but stout and erect growth. September and October. Price: 9/16 in., 4 ft. and up, 60c each; 3 for \$1.65.

net.

BLUE SKYLARK ASTER

Planted in May, we actually counted 800 blooms on one plant. We are listing this wonderful Aster with the 'Mum family. They have about the same blooming season, from early September to November. Blue Skylark is a very thrifty plant, grows from 2½ to 3½ feet high, can be planted for border planting or in back of smaller flowers like Glads or 'Mums on account of its great height. They are fine for individual bouquets or fit in beautifully with Glads, 'Mums, or other fall flowers. 25c each; 3 for 70c; 10 for \$1.50; 25 for \$3.00.

Pink Egyptian 'Mum

HARDY ORCHID (Shilka Iris)

Discovered by Prof. Hansen in the wilds of Siberia. Looks much like expensive Orchids. Beautiful, harmonizing flowers, many are double. Blooms for 6 weeks or more. **PRICES:** Blooming-size, 35c each; 3 for \$1.00; 6 for \$1.50; 12 for \$2.50.

EGYPTIAN 'MUMS

Thousands of Blooms

4 for \$1.25

Gorgeous Egyptian (Cushion-type) 'Mums. Now in two beautiful colors, deep golden-yellow and warm coral-pink. A hardy perennial similar to Azaleumums, but richer in color and stronger grower. Creates a sensation in any garden. Starts to bloom in August continuing until late fall. 500 to 1,000 blooms the first year. Individual flowers measure 1½ to 2 inches across. Plants grow 1½ to 2 feet tall. **PRICES:** 40c each; 3 for \$1.15; 6 for \$2.00; 12 for \$3.00.

Yellow
Egyptian 'Mums

European Mountain Ash

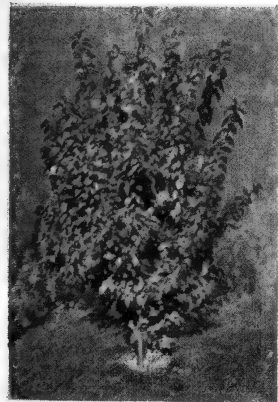

(Sorbus Aucuparia)

A hardy, medium size tree; head dense and regular. Covered from July until winter with large clusters of bright red berries. Reaches height of 25 to 30 feet. Beautiful and attractive. PRICES: Strong, 4- to 5-ft. trees, 80c each; 3 for \$1.95; 6 for \$3.25.

New Blood-Red Flowering Plum

(Prunus Cistena)

Our most striking and beautiful hardy dwarf BLOOD red reasonably priced plant. Grows about 6 to 8 feet tall and is a brilliant red from early spring till leaves drop in autumn. Extremely hardy and easy to grow. Plant in sunny location. Excellent for specimen plants and contrast in shrub borders. 2-yr., 2½ - 3 ft. plants, 85c each; 3 for \$2.25.

HOME BEAUTIFUL COLLECTION

- 1 (4-5 ft.) European Mt. Ash
- 1 (2½-3 ft.) New Blood-Red Flowering Plum
- 1 (3½-4 ft.) Weeping Birch

\$2.49 Net

Cut-Leaf Weeping Birch

8' tall, slender tree of vigorous growth, with graceful drooping branches, silvery white bark and delicately cut foliage. Reaches height of 30 to 40 feet. Plant 20 feet apart. PRICES: 2-yr., 3½-4 ft., \$1.50 each; 2 for \$2.75; 3 for \$4.00. 3-yr. well-branched trees, 6½-7 ft., \$3.00 each; 2 for \$5.50; 3 for \$8.00.

New 60-Day HYBRID SWEET CORN

Finest Quality Really Early

Brings 40c to 60c a Doz.

Without a doubt the finest early variety in cultivation for home and market gardens. Earliest of all quality Hybrid Sweet Corn. Ready for market in 60 days. 12-rowed, golden yellow ears, with small cob, on stocky 4-ft. stalks. Brings 40c to 60c a dozen. ½ lb., 45c; 1 lb., 65c; 2 lbs., \$1.25; 5 lbs., \$2.75, postpaid.

"BEST SWEET CORN"

Says Mr. Wayne R. Jones of Appleton, Wis. September, 29, 1941

The 60-Day Hybrid Sweet Corn I bought from you last spring was the finest I ever saw. I examined much of this corn sold here in our Food Department. Would like to reserve 10 pounds for next year.

MINGOLD TOMATO

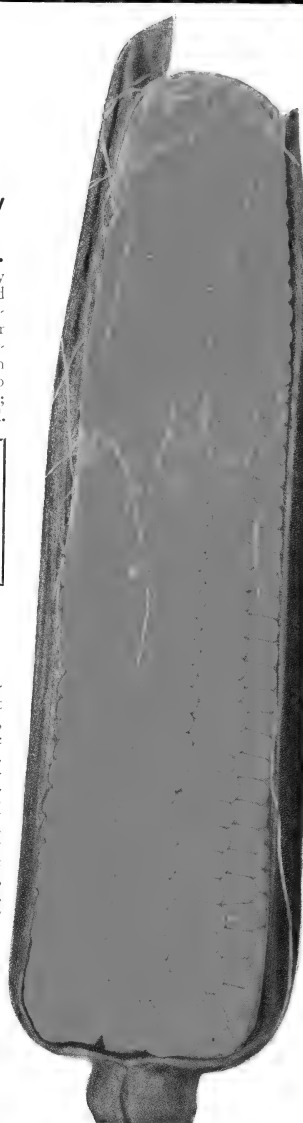

New!

Early—productive—more healthful. Now Yellow Tomato Juice that is delicious, and more healthful, richer in Vitamin D. Think of the tasty, colorful combination salads. Less acid, fine for marmalade. Mingold was originated by Dr. Troy Curran of Minnesota Agricultural Experiment Station. Very hardy, thick skinned, uniform, delicious flavor. Ripens early. Plants should be staked. Packet of over 150 seeds, 13c each; 2 for 25c; 10 for \$1.00. Thrifty plants, 12 for 75c; 25 for \$1.00; 50 for \$1.50, postpaid.

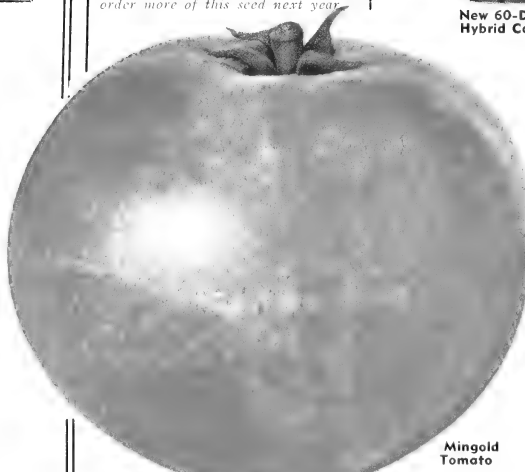

"YELLOW TOMATO JUICE IS EXCELLENT"

Says Dr. Frank Washick of Philadelphia. August 2, 1941.

I want to give you some information on the Yellow Tomato. Not only did it outbear Beefsteak, Oxheart, and Stone Tomatoes, which I also planted, but the Yellow Tomato Juice is excellent. I certainly am going to order more of this seed next year.

New 60-Day Hybrid Corn

4 Shrubs on This Page

ONE OF EACH, ALL

4 For Net \$1.89

TWO OF EACH, ALL

8 For Net \$3.19

Fancy—Quick Blooming

Way ahead of all other types of Lilacs. These varieties bloom very young, with mammoth panicles measuring 7 to 12 inches: clusters of gorgeous, fragrant blossoms. Budded on hardy non-suckering roots.

No waiting for flowers—they have a few blooming buds now. Sturdy, 2-yr., blooming-size. Set bushes 5 feet apart. Prices: 55c each; 2 for \$1.00; 10 for \$3.50.

RED BARBERRY

No other shrub can compare with the striking brilliance of our double-red strain of Barberry. Its abundance of thick purplish red leaves glisten in the sun, contrasting luxuriously with the green and yellow of other plants. Bushes have low-growing habit.

Can be pruned any time in summer to desired height and width. Lovely for borders, hedges, foundations, groups and lawn specimens. Red berries in winter. Set plants 1½ feet apart, in full sunlight. 2-yr., 15-20 inch, 40c each; 3 for \$1.15; 6 for \$2.00; 12 for \$3.50.

Brilliant Red-Leaf Barberry
For group and hedge plantings

Quick-Blooming Red French Lilac

Cotoneaster Divaricata

A BEAUTIFUL UNCOMMON SHRUB

This unusual shrub has a graceful, spreading habit of growth, making it ideal for planting in front of taller growing shrubbery. The tiny, dark green leaves are shiny like holly leaves, most unusual. In fall the leaves turn red and orange and hang on the bush well into the winter. White flowers are produced in great profusion, followed by red, egg-shaped fruits in beautiful, conspicuous clusters. Hardy and easy to grow.

Fortunately we have a supply of strong, 18 to 20 in. plants that we are offering our customers this year at the exceptionally low price of ONLY—2-yr. plants, 50c each; 3 for \$1.00; 6 for \$1.90; 12 for \$3.50.

SMOKE TREE

Purple Fringe
(Rhus Cotinus)

An enchanting tree-like shrub; enveloped in midsummer with showy masses of purplish misty flowers resembling beautiful clouds of drifting smoke. Attractive brilliant scarlet and golden autumn foliage. A hardy recognized garden beauty. 2-yr., 3-4 ft. Prices: 80c each; 3 for \$2.00. 1-yr., baby size, 30c each; 3 for 65c.

Spirea Van Houtte
(Bridal Wreath)

Long, graceful, drooping sprays covered with a mass of white flowers blooming in early spring. Very hardy, used in all sorts of landscape work. Grows to a height of 6 feet. 12 to 15 in., 20c each; 3 for 40c; 15 for \$1.00; 25 for \$1.50; 100 for \$5.25. 2 ft. and up, 30c each; 3 for 75c; 15 for \$1.50; 25 for \$2.25.

Hydrangea A. G.

Hydrangea A. G.

HILLS OF SNOW. Big, flat panicles of white flowers come in midsummer and last all fall. Wide leaves. Bushy, 3 to 4 ft. grower. 2-yr., well-branched, 12- to 18-inch clumps, full blooming-age, 40c each; 3 for \$1.10.

Forsythia
(Golden Bell)

Earliest blooming. Golden, bell-shaped flowers. Blooms often before the snow is gone. Tall grower. 2-yr., blooming-age, 35c each; 3 for \$1.00.

High Bush Cranberry

Magnificent shrub with gray branches and bright green leaves. Has small white cluster flowers, turning to showy scarlet berries that cling to bush all winter. Grows 8 to 10 feet tall. 2-yr. blooming size, 35c each; 3 for \$1.00.

Weigela Rosea

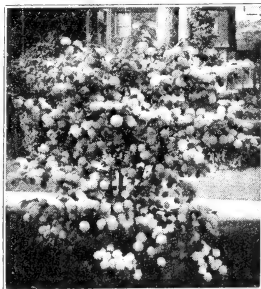

Sprays of large pink flowers. Leaves beautifully variegated green and white. Grows 3 to 4 feet high. 2-yr. strong, blooming size, 40c each; 3 for \$1.00.

Forsythia—Golden Bell

Highbush Cranberry

Old-Fashioned Snowball

Snowball

Well known; flowers grow in large, ball-like clusters, snow-white; blooms early. 2-yr., 35c each; 3 for \$1.00.

Snowberries

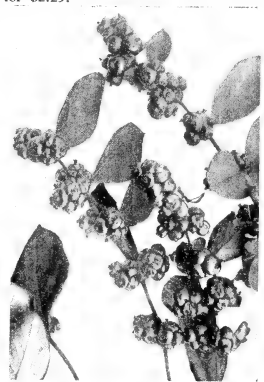

CHENAULTI RED. Graceful drooping branches covered entire length with tiny winglike leaves which color red in fall. Tiny pink blooms, large clusters of maroon berries. Dry them for winter bouquets. 2-yr., 35c each; 3 for \$1.00. Also 3-yr., 2-3 ft., heavy, 45c each; 3 for \$1.20.

Hydrangea P. G.

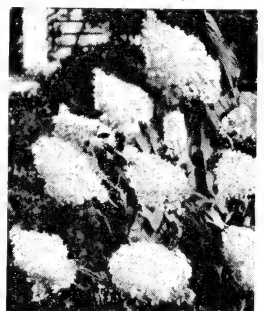

Giant heads of creamy white flowers, 6 to 9 inches long, turn to rose in autumn. Can be dried for winter bouquets. Fine for foundations, borders, groups. 2-yr. blooming age, 40c each; 3 for \$1.00.

Honeysuckle

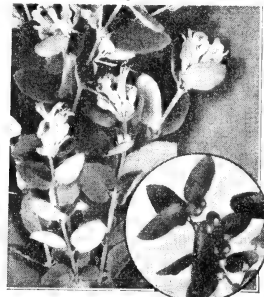

TARTARIAN. The finest and best known of the Bush Honeysuckles. Has somewhat spreading branches and bright green foliage. The flowers are of bright pink color, followed by red berries which ripen in midsummer and cling to the bush for several weeks. 2-yr. blooming age, 40c each; 3 for \$1.00. 3-yr. plants, 50c each; 3 for \$1.25.

Red Snowberry

Hydrangea P. G.

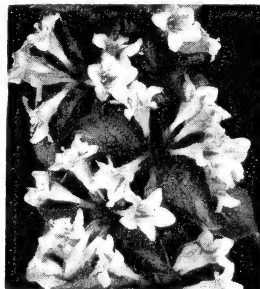

Honeysuckle, Tartarian

HEDGE PLANTS

CHINESE ELM HEDGE. The very finest of all hardy hedges, very fast grower, can be trimmed to any size or height. Plant 12 to 18 inches apart along walks, drives, lot lines, as windbreaks, or to hide undesirable views. Cut tops back to 12 inches to cause plants to branch thickly from the bottom. Grows 12 to 15 feet in height. 25 for \$1.25; 50 for \$2.00; 100 for \$3.00; 500 for \$12.00.

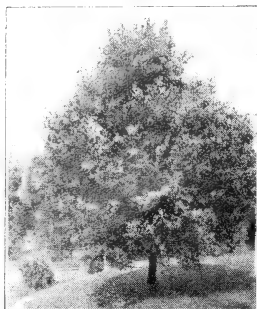

CALIFORNIA PRIVET. This variety has long been known as one of the most beautiful hedging plants. It grows rapidly and is free from insects and scale. Leaves are dark, glossy green. Not dependably hardy in some northern sections. 18 to 24 in. strong plants, 10 for \$1.00; 25 for \$1.75; 100 for \$6.40.

AMOR RIVER PRIVET. The hardiest and one of the most beautiful hedges. Glossy green leaves stay on long into the winter. 18 to 24 in. strong plants, 10 for \$1.00; 25 for \$1.75; 100 for \$6.40.

Weigela Rosea

WESTHAUSER'S SHADE TREES

CHINESE ELM

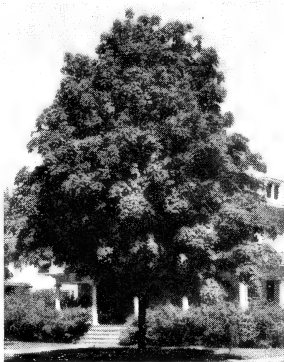

Very hardy and a splendid tree for the drier portion of our country. A rapid grower, well rounded head, grows to a tall, spreading tree. Almost any soil suitable. Our trees are very sturdy. 4 years old, twice transplanted and cannot be compared with spindly 1- or 2-year-old trees grown on muck land. 5-6 ft. bushy trees, each 75c; 2 for \$1.40; 10 for \$6.50. 7-8 ft. bushy trees, each \$1.25; 2 for \$2.30; 10 for \$10.00. 8-10 ft. bushy trees, each \$2.00; 2 for \$3.50.

May Day Tree

Lombardy Poplar

Sugar Maple

SUGAR MAPLE (Rock Maple). A well-known native tree, having a very symmetrical, dense head. One of the best shade trees for street or park. 4-5 ft. trees, each 50c; 3 for \$1.25. 7-8 ft. trees, each 75c; 3 for \$2.00.

SILVER MAPLE. Rapid growing tree, producing a quick shade, suitable for street or park. Leaves irregularly indented, bright green above, silver beneath. 3-4 ft. trees, each 25c; 10 for \$1.50. 4-6 ft. trees, each 50c; 3 for \$1.25.

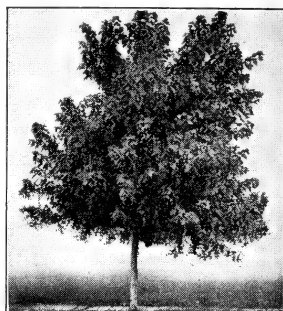

WISCONSIN WEEPING WILLOW. Grows rapidly; long, fine leaves on long sweeping branches reach the ground. 5-6 ft., each 60c; 3 for \$1.70; 5 for \$2.75; 10 for \$5.00.

LOMBARDY POPLAR. Tall and slender tree with bright green leaves and silvery appearance on under side. 5-6 ft. trees, each 40c; 3 for \$1.00; 6 for \$1.75.

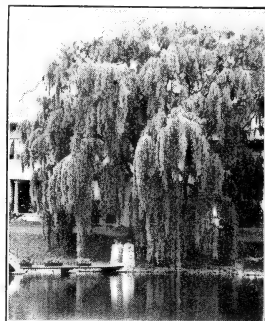

MAY DAY TREE. Long clusters of fragrant white flowers to cut for bouquets before other trees bloom! Small fruits attract birds. Extremely hardy. Grow in bush or tree form. Grows 20 feet. 3-4 ft. trees, 75c each; 3 for \$2.00. Mailable.

SPIREA Anthony Waterer

Bright crimson flowers blooming at the end of June, and if flowers are removed when they fade will bloom until frost. Dwarf grower, not over 2½ feet at maturity. 2-yr. blooming size plants, each 35c; 3 for \$1.00; 6 for \$1.75. 3-yr., 2½-ft. plants, 50c each; 3 for \$1.25; 6 for \$2.00.

Silver Maple

Wisconsin Weeping Willow

Spirea Anthony Waterer

NEW BABY'S BREATH (Gypsophila Repens Bodgeri)

This new plant is ideal for borders and rock gardens. It comes into flower early in the spring and continues throughout the entire summer. The flowers are double; first, pure white, later, flesh-pink. Flowers can be picked if so desired and will make wonderful little bouquets alone or they make up beautifully in combination with other flowers. It is an everblooming perennial and will give continuous color. **HARDY**—will thrive in most any type of soil in semi-shade or full sun. Grows about 12 inches high and as it gets older will spread to about 2 feet. Foliage, light green leaves pointed. Does not lose its leaves until the beginning of real winter. Prices: 40c each; 3 for \$1.00; 6 for \$1.85; 12 for \$3.45.

Baby's Breath

EARLY DOUBLE DAISY

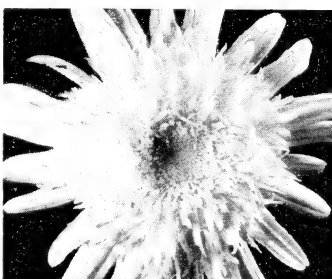

IMPROVED WHITE SWAN. This charming Daisy has a double, fluffy center as shown in the picture. When the plants are established they will produce 15 to 30 pure white flowers per plant. Stems grow to be 24 to 30 inches high. Blooms appear for Memorial Day in most sections and continue throughout June. **HARDY.** Decidedly beautiful. Plant 12 to 15 inches apart. Prices: 35c each; 2 for 60c; 4 for \$1.00; 6 for \$1.45, prepaid.

Westhauser's Heavy Rooted GRAPE VINES at Wholesale Prices

OUR GRAPE PLANTS are known the country over for a fast growing heavy bearing strain. They will produce delicious fruit, when established, for a long time. Many thousands of our customers are reaping both pleasure and profit from their investments.

CONCORD Is the leading variety for table use, also is supreme for jelly and wine purposes. They grow on all kinds of soil and produce enormous crops of fruit. The bunches are large and compact, the berries are dark blue and very juicy. Many thousand carloads and truckloads are shipped every fall from the great Michigan Fruit Belt. Grape plants are very scarce the country over this year, it will pay you to order early and have your plants reserved.

NIAGARA (White). This is the leading white Grape grown. Berries are large and fine flavored. Ripens about the same time as Concord.

MOORE'S EARLY (Black). Ripens about two weeks earlier than the Concord; large berries and bunches. Excellent for home use and market, and does not winter-kill.

Blue, Black, White Grape Collection

- 4 Concord, 2-yr. Blue.
- 4 Moore's Early, 2-yr. Black.

FANCY GRAPES

For Highest Flavor and Quality

Fredonia

Golden
Muscat

New Hardy SEEDLESS CONCORD GRAPE

After years of experimentation and cross-breeding, a perfectly hardy, seedless Grape has been developed. The first of a new race of Grapes that should eventually replace the common large-seeded varieties for table use. It is of the Concord type, but slightly smaller, blue-black in color, and possesses the same fine flavor found in the Concord Grape.

\$1.25 Each

3 for \$3.00

Fredonia

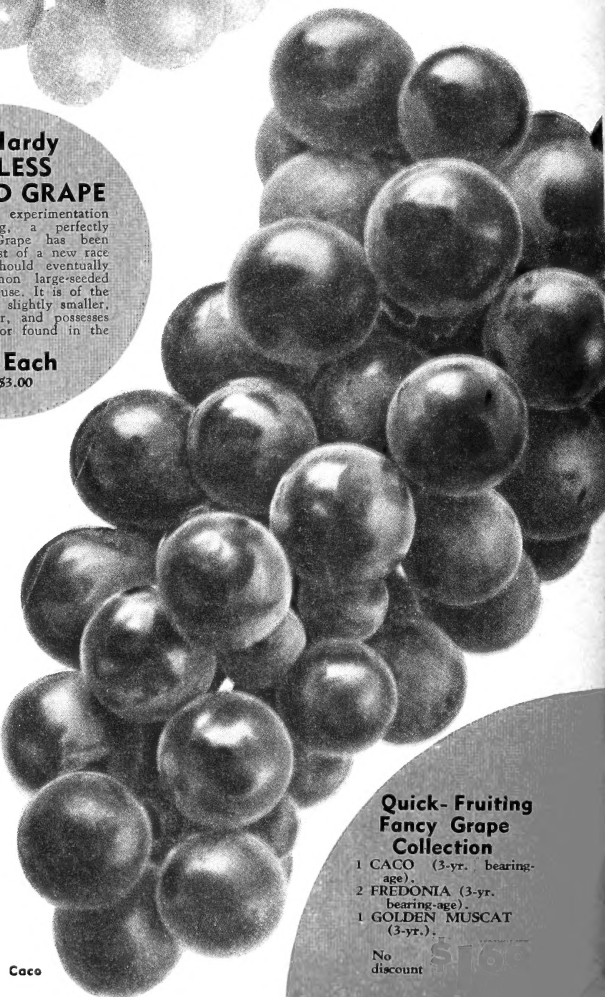

A winner. This new variety threatens to displace all other black grapes. A new, very early grape, originated and thoroughly tested by the New York Experiment Station. The clusters and berries are large, with excellent flavor. Ripens fully 10 days before Moore's Early and is an excellent shipper, as it does not crack. This grape fills a long-felt need—a juicy, delicious black grape that ripens early. Vine vigorous and productive. One of the best new varieties. **Prices, see page 31.**

Golden Muscat

This new hardy California Grape can now be grown in every section of the country. This variety is the result of the cross of the Muscat Hamburg and Diamond, which are very desirable in themselves. This cross makes a hardy, heavy bearing vine, and the quality of the fruit is similar to the white California Grape sold at all fruit markets. The berries are large, sweet and meaty, making it a wonderful variety to grow for home use and roadside stands. The bunches are large, heavy, broad shouldered, and tapering. Very compact. Being such a productive plant, we advise a good complete commercial fertilizer every spring, and you will be delighted with the crop. Supply of plants limited. **Prices, see page 31.**

Caco (Red)

This new Grape is outstanding for its beauty and quality. Color wine-red, flavor unusually rich, rivals in appearance and flavor Grapes grown under glass. Caco was awarded a medal by the American Institute of New York, a high honor for achievement. **Prices, see page 31.**
